

# Veronica Garden

Otherwise known as Hebe, our shrubby Veronica species are found throughout Ōtari and take many different forms from trees and shrubs to groundcovers and whipcord. They are a favourite of native insects and have co-evolved flowers to suit.

*Acaena pallida*

*Carex tenuiculmis*

*Coprosma acerosa*

*Cordyline* 'Karo Kiri'

*Hebe albicans* 'Rosea'

*Hebe bishopiana* aff. 'Hikurangi Swamp'

*Hebe* 'Red Edge'

*Hebe* 'Scottie's white'

*Kunzea amathicola*

*Metrosideros carminea*

*Olearia lineata* 'Dartonii'

*Pachystegia insignis*

*Parahebe* 'Blue'

*Phormium cookianum*

*Phormium tenax*

*Phormium tenax* 'Tapoto'

*Pseudopanax ferox*

*Veronica adamsii*

*Veronica albicans*

*Veronica bollonsii*

*Veronica diosmifolia*

*Veronica evenosa*

*Veronica ligustrifolia*

*Veronica macrocarpa*

*Veronica pareora*

*Veronica pubescens* subsp. *sejuncta*

*Veronica punicea*

*Veronica rigidula*

*Veronica* sp

*Veronica stenophylla* var. *hesperia*

*Veronica stenophylla* var. *stenophylla*

*Veronica tairawhiti*

*Veronica topiaria*

*Veronica townsonii*

*Veronica treadwellii* aff. 'Bald Knob Ridge'

*Veronica urvilleana*

*Veronica vernicosa*
